EXPERIENCE

Josco Automobiles

Mar 2021 – Jun 2021

Quality Assurance Engineer

Kerala, India

- Weld joints inspection and quality assurance using VT and LPT tests.
- Made quality checklists for quality testing and SOP for making production process standardized.
- Part design team in building new designs for new products using AutoCAD and Solidworks.

Sance Laboratories

Jun 2020 – Dec 2020

Graduate Engineering Trainee

Kerala, India

- Supported plant engineer in completing daily and weekly maintenance of the production plant
- Completed quality maintenance of Granulators, Powder mixer and HVAC filters.

Noctech Solutions

Oct 2019 – Jun 2020

AI Engineer Intern

Kerala, India

- Developed and deployed a CNN based image classification system using PyTorch to automate quality control in a production line.
- Regression analysis on 50K+ user records to identify primary drivers of customer lifetime value, identified three key behavioral features that informed company's Q3 marketing strategy.

PROJECTS

Natural Language Processing(NLP)

Fake News Detection: Developed a binary classifier using BERT and LSTM models to identify fake newsarticles with 87 percent accuracy(Tools: Python, TensorFlow, NLTK; Dataset: LIAR dataset).

RAG and Agentic AI

Engineered a Retrieval-Augmented Generation (RAG) pipeline utilizing Hugging Face and Chroma vector embeddings to augment Llama 3 with a private knowledge base of unstructured technical documents.

Computer vision for Object Identification

Developed a real-time multi-object tracking pipeline for urban traffic monitoring using YOLOv8 and DeepSORT, achieving 45+ FPS and maintaining unique ID persistence across occlusions.

EDUCATION

Friedrich Alexander Universität

Oct 2022 – present

Msc Electromobility ACES

Erlangen, Germany

Coursework: Artificial Intelligence, Deep Learning, Computer Vision, Robotics, Machine Learning.

APJ Abdul Kalam Technological University

Jun 2015 – Aug 2019

B Tech Mechanical Engineering

Kerala, India

Coursework: Thermodynamics, Design of Machine Elements, Fluid Machinery, Metallurgy and Material Science.

SKILLS

Languages : Python, SQL (MySQL)

Tools : Docker, AutoCad, Solidworks, N8N, Matlab, ROS2, Google Analytics, GitHub,
